

Kine-Gate Systems is pleased to offer an Informative Seminar for Landscape Architects & Architects on Automated Gates

Seminar Topics

- The importance of a single integrated gate system
- How Virtual Imaging provides quick gate solutions
- The basics of the gate site infrastructure
- Essential gate system safety equipment
- Gate construction techniques by master craftsmen
- The importance of assembly & testing of each system
- Proper care & maintenance of the gate system

This seminar is provided by Kine-Gate Systems, a division of Kinefac® Corporation. The seminar will be presented by an individual who has installed 100's of high end gate systems in his 35 years of experience.
